

The background features a solid orange color with a light blue geometric shape that resembles a stylized mountain range or a series of peaks and valleys. The blue shape is positioned in the upper half of the frame, with its peaks pointing upwards.

Financial Statements

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS

TRINIDAD AND TOBAGO MORTGAGE FINANCE COMPANY LIMITED

We have audited the accompanying consolidated financial statements of Trinidad and Tobago Mortgage Finance Company Limited which comprise the consolidated statement of financial position as at 31 December 2009 and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate for the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Company as of 31 December 2009 and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Port of Spain,
TRINIDAD:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER, 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

1. Incorporation and principal activity

Trinidad and Tobago Mortgage Finance Company Limited (TTMF), the parent company, is incorporated in the Republic of Trinidad and Tobago and provides mortgage financing for the purchase of residential property. The Company is also an “approved mortgage company” under the provisions of the Housing Act, Ch. 33:01. The Company is a subsidiary of The National Insurance Board which is a statutory board under the National Insurance Act.

TTMF has one subsidiary, Trinidad Mortgage Agency Company Limited (TRINMAC). This subsidiary is 100% owned and is incorporated in Trinidad and Tobago under the Companies Act of 1995. Its principal business activity is also mortgage financing. Prior to 2007, all taxable mortgages were booked under TRINMAC.

The registered office of the parent and its subsidiary is located at 61 Dundonald Street, Port of Spain.

2. Significant accounting policies

a) Basis of presentation

The financial statements of the Group are prepared in accordance with International Financial Reporting Standards (IFRS), and are stated in thousands of Trinidad and Tobago dollars. These financial statements have been prepared on a historical cost basis.

The following is a summary of the significant accounting and reporting policies used in preparing the financial statements.

b) Changes in accounting policy

The accounting policies adopted are consistent with those of the previous financial year except that the Group has adopted the following new and revised IFRSs and IFRIC interpretations as of 1 January 2009:

- IAS 1 (Revised) *Presentation of Financial Statements*
- Amendment to IFRS 7 *Financial Instruments: Disclosures*
- Amendment to IAS 23 *Borrowing Costs*

Adoption of these revised standards and interpretations did not have any material effect on the financial performance or position of the Group. It did however give rise to additional disclosures including revisions to certain accounting policies and an overall revision in the presentation format of the financial statements contained and as set out in pages 13 to 16.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

2. Significant accounting policies (continued)

b) Changes in accounting policy (continued)

The principal effects of these changes are as follows:

IAS 1 (Revised) Presentation of Financial Statements

This standard requires all owner changes in equity and all non-owner changes to be presented in either one Statement of Comprehensive Income or in two separate Statements of Income and Comprehensive Income. The previous standard required components of comprehensive income to be presented in the Statement of Changes in Equity. In addition, it requires entities to present a comparative Statement of Financial Position as at the beginning of the earliest comparative period when the entity has applied an accounting policy retrospectively, makes a retrospective restatement, or reclassifies items in the financial statements.

The Group has elected to present comprehensive income in one Statement of Comprehensive Income. The Group has not provided a restated comparative set of financial position for the earliest comparative period, as it has not adopted any new accounting policies retrospectively, or has made a retrospective restatement or retrospectively reclassified items in the financial statements.

Amendment to IFRS 7 Financial Instruments: Disclosure

The amendment to the standard requires an entity to provide a quantitative and qualitative analysis of those instruments recognised at fair value based on a three-level measurement hierarchy. Furthermore, for those instruments which have significant unobservable inputs (classified as Level 3), the amendment requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the period split between those recognised in other comprehensive income, purchases, sales issues and settlements, and sensitivity analysis of reasonably possible changes in assumptions. In addition, disclosure is required of the movements between different levels of the fair value hierarchy and the reason for those movements. Finally, the standard amends the previous liquidity risk disclosures as required under IFRS 7 for non-derivative and derivative financial liabilities.

Entities are required to apply this amendment for annual periods beginning on or after 1 January 2009, with no requirement to provide prior year comparatives on transition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

2. Significant accounting policies (continued)

b) Changes in accounting policy (continued)

Amendment to IAS 23 Borrowing Costs

IAS 23 (revised) is effective for accounting periods beginning on or after 1 January 2009.

The main change from the previous version is the removal of the option to immediately recognise as an expense borrowing costs that relate to assets that take a substantial period of time to get ready for use or sale.

The amendment to IAS 23 does not have any impact on the financial performance or position of the Group.

Listed below are standards and interpretations that have been issued, but have no significant impact on the Group's financial statements.

IFRS 2 Share-Based Payment (Amendment)

This amendment to IFRS 2 Share-based payments was issued in January 2008 and became effective for financial years beginning on or after 1 January 2009. The standard restricts the definition of 'vesting condition' to a condition that includes an explicit or implicit requirement to provide services. Any other conditions are non-vesting conditions, which have to be taken into account to determine the fair value of the equity instruments granted. The Group currently does not have share-based payment schemes with non-vesting conditions attached and, therefore, does not expect significant implications as a result of this amendment.

IAS 27 Consolidated and Separate Financial Statements - Cost of an Investment in a Subsidiary, Jointly Controlled Entity (Amendment)

This amendment to IAS 27 is effective for financial years beginning on or after 1 January 2009. The amendment deletes the definition of the 'cost method' under IAS 27, thereby removing the distinction between pre- and post-acquisition profits in its separate financial statements. The entity therefore can recognise all dividends from a subsidiary, jointly controlled entity or associate, but must consider whether any payment of such dividends provides an indication of impairment. In addition, IAS 27 has also been amended to effectively allow the cost of an investment in a subsidiary, in limited reorganisations, to be based on the previous carrying amount of the subsidiary rather than its fair value. This amendment did not have any impact on the financial performance or position of the Group.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)

b) Changes in accounting policy (continued)

IAS 39 Financial Instruments: Recognition and Measurement and IFRS 7 Financial Instruments: Disclosure (Amendment)

Amendments to IAS 39 and IFRS 7 were issued in October 2008 in response to the global credit crisis.

The amendments allow entities to reclassify certain financial assets out of held-for-trading if they are no longer held for the purpose of being sold or repurchased in the near term. In addition, financial assets that are not eligible for classification as loans and receivables may be transferred from 'Held-for-trading' to 'Available-for-sale' or to 'Held-to-maturity', only in rare circumstances.

The standard was effective retrospectively from 1 July 2008 until 1 November 2008. Thereafter, retrospective application was not permitted. Similarly, IFRS 7 was amended for disclosure requirements in respect of the assets reclassified, including the amount reclassified into and out of each category and the gains and losses that would have been recognised in Statement of Income or Equity, had they not been reclassified. The Group has not taken advantage of this amendment for the period ending 31 December 2009.

Amendments to IAS 32 Financial Instruments: Presentation and IAS 1 Puttable Financial Instruments and Obligations Arising on Liquidation

Amendments to IAS 32 and IAS 1 were issued by the IASB in February 2008 and became effective for annual periods beginning on or after 1 January 2009. The amendment to IAS 32 requires certain puttable financial instruments and obligations arising on liquidation to be classified as equity if certain criteria are met. The amendments to IAS 1 require disclosure of certain information relating to puttable instruments classified as equity.

The amendments to IAS 32 and IAS 1 do not have any impact on the financial performance or position of the Group as the Group has not issued such instruments.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)

b) Changes in accounting policy (continued)

IFRIC 13 Customer Loyalty Programmes

This interpretation requires customer loyalty credits to be accounted for as a separate component of the sales transaction in which they are granted. It will be effective for financial years beginning on or after 1 July 2008. The amendment had no material impact on the Group's financial statements.

IFRIC 15 Agreement for the Construction of Real Estate

The interpretation is to be applied retrospectively and clarifies when and how revenue and related expenses from the sale of a real estate unit should be recognised if an agreement between a developer and a buyer is reached before the construction of the real estate is completed. Furthermore, the interpretation provides guidance on how to determine whether an agreement is within the scope of IAS 11 or IAS 18. IFRIC 15 will not have an impact on the Group's financial statements because the Group does not conduct such activities.

Improvements to IFRSs

In May 2008 the IASB issued its first omnibus of amendments to its standards. The amendments primarily deal with a view to remove inconsistencies and clarify wordings. These amendments, unless otherwise stated, are effective for financial years beginning on or after 1 January 2009. The adoption of the following amendments resulted in changes to accounting policies but did not have any impact on the financial position or performance of the Group.

- *IFRS 7 Financial Instruments: Disclosures*: the amendment removed the reference to 'total interest income' as a component of finance costs. This had no impact to the accounting policy and financial position of the Group as this policy was already applied.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)

b) Changes in accounting policy (continued)

Improvements to IFRSs (continued)

- *IAS 1 Presentation of Financial Statements:* assets and liabilities classified as ‘held-for-trading’ in accordance with IAS 39 Financial Instruments: Recognition and Measurement are not automatically classified as current in the Statement of Financial Position. This had no impact on the Group as the Group does not classify its financial assets and liabilities between current and non-current categories.
- *IAS 8 Accounting Policies, Change in Accounting Estimates and Errors:* the amendment clarifies that only implementation guidance that is an integral part of an IFRS is mandatory when selecting an accounting policy. This had no impact on accounting policy and financial position of the Group as it had already been applied.
- *IAS 16 Property, Plant and Equipment:* replaces the term ‘net selling price’ with ‘fair value less costs to sell’. The Group amended its accounting policy accordingly, which did not result in any change in the financial position.
- *IAS 27 (Amended) Consolidated and Separate Financial Statements:* this amendment requires that any subsidiaries held in accordance with IAS 39 continue to be treated at that value when they meet the definition of held for sale. The change in accounting policy did not impact the Group’s financial position, as no subsidiaries meet the criteria under IFRS 5, and the Group does not account for any subsidiaries at fair value on subsequent measurement.
- *IAS 28 Investment in Associates:* if an associate is accounted for at fair value in accordance with IAS 39, only the requirement of IAS 28 to disclose the nature and extent of any significant restrictions on the ability of the associate to transfer funds to the entity in the form of cash or repayment of loans applies. This amendment has no impact on the Group.

An investment in an associate is a single asset for the purpose of conducting the impairment test. Therefore, any impairment test is not separately allocated to the goodwill included in the investment balance. This amendment had no impact on the Group since the Group does not have any investment in associates.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)

b) Changes in accounting policy (continued)

Improvements to IFRSs (continued)

- *IAS 38 Intangible Assets:* expenditure on advertising and promotional activities is recognised as an expense when the Group either has the right to access the goods or has received the service. This amendment has no impact on the Group because it does not enter into such promotional activities.
- *IAS 10 Events after the Reporting period:* the amendment clarifies that dividends declared after the end of the reporting period are not obligations. This had no impact to accounting policy and financial position of the Group as this was already applied.
- *IAS 18 Revenue:* the amendment replaces the term 'direct costs' with transaction costs as defined in IAS 39.
- *IAS 36 Impairment of Assets:* when discounted cash flows are used to estimate 'fair value less cost to sell' additional disclosure is required about the discount rate, consistent with disclosures required when the discounted cash flows are used to estimate 'value in use'. This amendment has no immediate impact on the disclosures of the consolidated financial statements of the Group because the recoverable amount of its cash generating units is currently estimated using 'value in use'.
- *IAS 19 Employee Benefits:* revised the definition of 'past service costs', 'return on plan assets' and 'short-term' and 'other long-term' employee benefits. Amendments to plans that result in a reduction in benefits related to future services are accounted for as curtailment. The reference to the recognition of contingent liabilities was deleted to ensure consistency with IAS 37. Changes to definitions on return on plan assets, contingent liability and short-term and other long-term benefits are to be applied retrospectively. The change to past service cost definition to be applied prospectively. The amendment had no impact on accounting policy and financial position of the Group.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)

b) Changes in accounting policy (continued)

Standards in issue not yet effective

The Group has not applied the following IFRS's and IFRIC Interpretations that have been issued but are not yet effective.

IAS 39 Financial Instruments: Recognition and Measurement was amended (effective from 1 July 2009) regarding hedging portions of risk, and clarifies the principles associated with designating a portion of cash flows or fair values of a financial instrument as a hedged item.

IFRS 3 Business Combinations was amended (effective from 1 July 2009). The amendments were the result of a joint project with the US FASB, and certain fundamental changes and improvements were made to reinforce the existing standard and remedy problems that have emerged with its application.

IFRIC 17 Distributions of Non-cash Assets to Owners (effective from 1 July 2009) provides guidance on how to account for such transactions. It also provides guidance on when to recognise a liability and how to measure it and the associated assets, and when to derecognise the asset and liability and the consequences of doing so.

IFRIC 18 Transfers of Assets from Customers (effective from 1 July 2009) provides guidance on when and how an entity should recognise items of property, plant and equipment received from their customers.

IFRS 9 Financial instruments, this standard will eventually replace IAS 39 Financial Instruments: Recognition and Measurement. Although adoption of this standard is permitted on a phased basis for periods ending on or after 31 December 2009, adoption of this standard becomes mandatory on 1 January 2013. For the year ended 31 December 2009 this standard was not adopted by the Group and as such does not have any impact on the financial performance or position of the Group.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)

c) Basis of consolidation

Subsidiary undertakings, which are those companies in which the Parent directly or indirectly has an interest of more than one half of the voting rights or otherwise has power to exercise control over the operation, have been consolidated. Subsidiaries are consolidated from the date on which effective control is transferred to the Parent and are no longer consolidated from the date that control ceases. All intercompany transactions, balances and unrealised surpluses and deficits on transactions between Group companies have been eliminated.

d) Financial instruments

The Group's financial assets and liabilities are recognised in the statement of financial position when it becomes party to the contractual obligations of the instrument. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss.

The Group derecognises its financial assets when the rights to receive cash flows from the assets have expired or where the Group has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised only when the obligation under the liability is discharged, cancelled or expires. All "regular way" purchases and sales are recognized on the trade date, which is the date that the Group commits to purchase or sell the instrument.

e) Investment securities

The Group classifies its investment securities as held-to-maturity financial assets. Held-to-maturity financial assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. After initial measurement, held-to-maturity financial investments are subsequently measured at amortized cost, less allowance for impairment. Premiums and discounts are amortized over the life of the instrument using the effective interest rate method. The amortization of premiums and discounts is taken to the Consolidated Statement of Comprehensive Income.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)

f) Mortgage loans

Mortgage loans are financial assets provided directly to a customer. These carry fixed or determinable payments and are not quoted in an active market. Mortgage loans are carried at amortized cost using the effective interest method, less provision for impairment.

g) Impairment of financial assets

Financial assets are impaired when the carrying value is greater than the recoverable amount and there is objective evidence of impairment. The recoverable amount is the present value of the future cash flows.

Provision for impairment is assessed for all loans where there is objective evidence that the full amount due to the Group would not be repaid. The allowance recognized is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset original effective interest rate.

When properties are seized by the Group, provisions are also made for the differences between the carrying value of the mortgages and the value of the related properties in the possession of the Group at the balance sheet date. Any change in provisions required is recorded in the Consolidated Statement of Comprehensive Income.

h) Property and equipment

All property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)

h) Property and equipment (continued)

All other repairs and maintenance are charged to other operating expenses during the financial period in which they are incurred.

Land is not depreciated as it is deemed to have an infinite life. Depreciation of other assets is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Office buildings	-	2 to 33_%
Motor vehicles	-	25%
Furniture and equipment	-	12_%
Computer equipment	-	20 to 25%

Property and equipment are reviewed periodically for impairment. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Gains and losses on disposals of property and equipment are determined by reference to their carrying amounts and are taken into the Consolidated Statement of Comprehensive Income.

i) Cash and cash equivalents

Cash and cash equivalents are defined as cash on hand, bank overdraft, demand deposits and short term, highly liquid investments readily convertible to known amounts of cash with original maturities of three months or less and subject to insignificant risks of change in value.

j) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events from which, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)

j) Provisions (continued)

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the Statement of Financial Position date.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation.

k) Employee benefits

Pension obligations

The Group operates a defined benefit plan, the assets of which are held in a separate trustee-administered fund. The pension plan is funded by payments from employees and by the Group, taking account of the recommendations of an independent qualified actuary. A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors, such as age, years of service and compensation.

The asset/liability recognized in the Consolidated Statement of Financial Position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the Statement of Financial Position date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. Under this method, the cost of providing pensions is charged to the Consolidated Statement of Comprehensive Income so as to spread the regular cost over the service lives of the employees.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)

k) Employee benefits (continued)

Pension obligations (continued)

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions in excess of the greater of 10% of the value of plan assets or 10% of the defined benefit obligation are charged or credited to income over the employees' expected average remaining working lives. Past-service costs are recognized immediately in administrative expenses, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortized on a straight-line basis over the vesting period.

l) Financial liabilities

Financial liabilities are recognized initially at fair value net of transaction costs, and subsequently measured at amortized cost using the effective interest rate method.

m) Taxation

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the Consolidated Statement of Comprehensive Income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the Statement of Financial Position date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)

m) Taxation (continued)

Deferred tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the Statement of Financial Position date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized where it is probable that future taxable profit will be available against which the temporary differences can be utilized. The tax effects of income tax losses available for carry forward are recognized as an asset when it is probable that future taxable profits will be available against which these losses can be utilized.

n) Foreign currency

Monetary assets and liabilities denominated in foreign currencies are expressed in Trinidad and Tobago dollars at rates of exchange ruling on 31 December 2009. All revenue and expenditure transactions denominated in foreign currencies are translated at mid-exchange rates and the resulting profits and losses on exchange from these trading activities are dealt with in the Consolidated Statement of Comprehensive Income.

o) Revenue recognition

Mortgage loans

Income from mortgage loans, including origination fees, is recognized on an amortized basis. Interest is accounted for on the accruals basis except where a loan becomes contractually three months in arrears and the interest is suspended and then accounted for on a cash basis until the loan is brought up to date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)

o) Revenue recognition (continued)

Investment income

Interest income is recognized in the Consolidated Statement of Comprehensive Income as it accrues, taking into account the effective yield of the asset or an applicable floating rate. Interest income includes the amortization of any discount or premium. Investment income also includes dividends.

Rental income under operating leases is recognized in the Consolidated Statement of Comprehensive Income on a straight line basis over the term of the lease.

Fees and commissions

Unless included in the effective interest calculation, fees are recognized on an accrual basis as the service is provided. Fees and commissions not integral to the effective interest arising from negotiating or participating in the negotiation of a transaction from a third party are recognized on completion of the underlying transaction. Portfolio and other management advisory and service fees are recognized based on the applicable service contract.

Other income and expenditure

Other income and expenditure, inclusive of borrowing costs and related government subsidies are brought into account on the accruals basis.

p) Mortgage agency business

The Group manages the disbursement and collection of mortgage loans on behalf of other mortgage companies. The loan portfolios managed under these agreements totaled \$535.5 million (2008: \$572.3 million) and is not reflected in these financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)

q) Share capital

Ordinary shares are classified as equity. Incremental external costs directly attributable to the issue of new shares, other than in connection with business combinations, are shown in equity as a deduction, net of tax, from the proceeds. Share issue costs incurred directly in connection with a business are included in the cost of acquisition.

r) Capitalized transaction costs

The costs incurred in the issue of bonds for investment in housing is amortized over the duration of the respective bond issue (see Note 14).

s) Comparative information

Certain changes in presentation have been made in these financial statements. These changes were primarily made to the Consolidated Statement of Financial Position, with the reclassification of assets and liabilities and income and expenses. These changes had no effect on the operating results or the profit after tax of the Group for the previous year.

3. Critical accounting judgments and key sources of estimation uncertainty

Key sources of estimation uncertainty

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

3. Critical accounting judgments and key sources of estimation uncertainty (continued)

Key sources of estimation uncertainty (continued)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical accounting judgments

The following are the critical judgments, apart from those involving estimations that management has made in the process of applying the entity's accounting policies that have the most significant effect on the amounts recognized in financial statements.

a) *Deferred tax asset*

In calculating the provision for deferred taxation, management uses judgment to determine the possibility that future taxable profits will be available to facilitate utilization of taxable losses which have arisen to the Statement of Financial Position date.

b) *Impairment of financial assets*

Management makes judgments at the end of the reporting period to determine whether financial assets are impaired when the carrying value is greater than the recoverable amount and there is objective evidence of impairment. The recoverable amount is the present value of the future cash flows.

c) *Net pension asset/liability*

In conducting valuation exercises to measure the effect of employees benefit plans throughout the Group, judgment is used and assumptions are made, in determining discount rates, salary increases, National Insurance ceiling increases, pension increases and the rate of return on the assets of the Plan. These are detailed in Note 9 – Pension and other post employment benefits.

NOTES TO CONSOLIDATED THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER, 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

16. Subsidy 2% mortgage programme

The Government of Trinidad and Tobago developed a Strategic Plan with a view to achieving developed country status by the year 2020 coined 'Vision 2020'. One of its primary objectives is the provision of affordable housing for the citizens of this country under an approved national Housing Policy document entitled **"Showing Trinidad and Tobago a New Way Home"**. The parent company was chosen to partner with the Government in this initiative as the principal mortgage provider to qualifying citizens at subsidized rates of interest through a Government subsidy.

A subsidy of TTD\$200M was received from the Government of Trinidad and Tobago in June 2007 to assist with the financing and the provision of affordable housing at subsidized rates of interest to citizens of Trinidad and Tobago. This subsidy also compensates TTMF for the overall administration of this portfolio. The subsidy is being released to income on an amortized basis over the duration of the subsidized mortgages, with the interest element of the subsidy being net off against interest expense and the administration fees being recognized in other income.

	2009	2008
Grant balance b/f	194,725	199,144
Less amounts released:		
Interest expense (Note 15)	(9,521)	(3,724)
Other income (Note 20)	(1,483)	(695)
	<u>183,721</u>	<u>194,725</u>
Balance deferred	<u>183,721</u>	<u>194,725</u>

17. Subsidy – Government \$100M & \$200M Bond

The subsidy received from the Government of Trinidad and Tobago is calculated on a quarterly basis as the difference between the cost of the bonds, plus an administrative fee, and the effective rate of return on the Group's mortgage loans, over the term of the bonds. This enabled the Group to lend at specified interest mortgage rates under the approved mortgage company programme. This is recognized on the accruals basis and is net off against Interest expense in the Consolidated Statement of Comprehensive Income.

The total subsidy net off against interest expenses during the current year was \$6,650 (2008: \$7,395). Refer to Note 15.

24. Mortgage commitments

At 31 December 2009 the Group had outstanding commitments totaling \$358 million (2008: \$341 million), to intending mortgagors.

25. Related party transactions

Parties are considered to be related if one has the ability to control or exercise significant influence over the other party in making financial or operational decisions. A number of transactions are entered into with related parties in the normal course of business.

Key management personnel are those persons having authority and responsibility for planning and controlling the activities of the Group.

	2009	2008

25. Related party transactions (continued)		
Key management compensation		
Short-term benefits	2,333	2,487
Post employment benefits	297	262
Directors' remuneration	398	284

26. Contingent liabilities - litigation

As at 31 December 2009, there were certain legal proceedings outstanding for the Group. This is expected in the normal course of business, with the re-possession of the underlying collateral supporting mortgage loans in arrears. This is taken into consideration in the establishment of individual and collective provisions in the assessment of the impairment of mortgages.

27. Capital management

The Group's objectives when managing capital, which is a broader concept than equity on the face of the Consolidated Statement of Financial Position, are:

- To safeguard the Group's ability to continue as a going concern so that it can continue to provide returns to shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

The Group defines capital as an appropriate mix of debt and equity. Capital increased by \$664 million to \$3.0 billion during the year under review.

The Group reviews its capital adequacy annually at the Finance committee and Board Level. The Group maintains healthy capital ratios in order to support its business and to maximize shareholder value.

(Continued)

28. Risk management

The Group's activities are primarily related to the provision of mortgage loans for the purchase of residential properties. The Group's activities expose it to a variety of financial risks and those activities involve analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the financial business, and the operational risks are an inevitable consequence of being in business. The Group's aim is therefore to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Group's financial performance.

The Group's risk management policies are designed to identify and analyze these risks, set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Group regularly reviews its risk management policies and systems to reflect changes in markets and emerging best practice. The most important types of risk that the Group is exposed to are credit risk, liquidity risk, market risk and other operational risk.

Risk management structure

The Board of Directors is ultimately responsible for identifying and controlling risks however, there are separate independent bodies responsible for managing and monitoring risks.

Board of Directors

The Board of Directors is responsible for the overall risk management approach and for approving the risk strategies and principles.

Internal audit

Risk management processes throughout the Group are audited periodically by the internal audit function, which examines both the adequacy of the procedures and the Group's compliance with the procedures. In addition, internal audit is responsible for the independent review of risk management and the control environment. Internal Audit discusses the results of all assessments with management, and reports its findings and recommendations to the Audit Committee.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

28. Risk management (continued)

Credit risk

The Group takes on exposure to credit risk, which is the risk that a counterparty will cause a financial loss for the Group either by its unwillingness to perform on an obligation or its ability to perform such an obligation is impaired. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counter-parties and for geographical concentrations, and by monitoring exposures in relation to such limits.

Credit risk is the most important risk that the Group faces; management therefore carefully manages its exposure to credit risk. Credit exposures arise principally in lending activities that lead to mortgage loans, and investment activities that bring debt securities and other bills into the Group's asset portfolio. There is also credit risk in off-Statement of Financial Position financial instruments, such as loan commitments.

Maximum Exposure to credit risk before collateral held or other credit enhancements

Credit risk exposures relating to Statement of Financial Position assets are as follows:

Details	Maximum exposure	
	2009	2008
Financial assets		
Mortgage loans	2,583,036	2,251,348
Investment securities (held-to-maturity)	250,464	248,692
Other receivables	10,872	13,030
Cash at bank and cash equivalents	262,649	4,202
Total gross financial assets	3,107,021	2,517,272
Mortgage commitments	358,000	341,000
Total credit risk exposure	3,465,021	2,858,272

The above table represents a worse case scenario of credit risk exposure to the Group at 31 December, without taking account of any collateral held or other credit enhancements attached.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

28. Risk management (continued)

Credit risk (continued)

Of the Investment securities which the Group holds, \$50M was pledged in 2009 as security for overdraft facilities at Republic Bank Limited (see Note 4).

Off-balance sheet items – Mortgage commitments

The dates of the contractual amounts of the Group's off-Statement of Financial Position financial instruments that commit it to extend credit to customers and other facilities are summarised in the table below. These commitments are due within one year of the financial year end.

Risk limit control and mitigation policies

The Group manages limits and controls concentrations of credit risk wherever they are identified-in particular, to individual counterparties.

The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower or Groups of borrowers and to geographical segments.

Exposure to credit risk is also managed through regular analysis of the ability of borrowers and potential borrowers to meet interest and capital repayment obligations.

The Group has developed a credit risk strategy that establishes the objectives guiding the organization's credit-granting activities and has adopted the necessary policies and procedures for conducting such activities having determined the acceptable risk/reward trade-off for its activities, factoring in the cost of capital. The credit risk strategy, as well as significant credit risk policies are approved and periodically reviewed by the Board of Directors.

The Group's credit strategy reflects its willingness to grant credit based on exposure type-residential mortgages, geographic location, maturity and anticipated profitability. The strategy also encompasses the identification of specific target markets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

28. Risk management (continued)

Credit risk (continued)

Risk limit control and mitigation policies (continued)

Concentrations arise when a number of counterparties are engaged in similar activities in the same geographic region that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular geographic location.

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on a diversified portfolio.

Some specific risk control and mitigation measures are outlined below:

(1) Collateral

The Group employs various policies and practices to mitigate credit risk. The most traditional of these is the taking of security for funds advanced, which is common practice. The Group implements guidelines on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral type for mortgage loans is charges over residential properties.

Management monitors the market value of collateral at the point of granting the mortgage commitment and during its review of the adequacy of the allowance for impairment losses.

The Group's policy is to dispose of repossessed properties in a structured manner. The proceeds from the sale are used to repay the outstanding amounts. In general, the Group does not occupy repossessed properties for business use.

Credit risk (continued)

Risk limit control and mitigation policies (continued)

(2) *Lending*

The Group lends up to a maximum of 90% of the property value and 100% under a special programme for projects of The Trinidad and Tobago Housing Development Corporation.

(3) *Geographical concentrations*

The Group monitors the financial assets credit risk by geographical concentration to prevent over exposure in any area or any residential housing development. The Group manages its investment portfolio by focusing on maintaining a diversified portfolio and concentration percentages. Identified concentrations of credit risks are controlled and managed accordingly.

The table below breaks down mortgage loans, which are the Group's principal financial asset, by region, based upon where the land and building taxes are paid.

		28%	48%	23%	1%	100%

Mortgage loans are classified based on the arrears position at the end of the financial year in addition to other factors that may threaten the quality of the portfolio.

High grade mortgages are defined as those where loan payments are up to date. Standard grade mortgages are those where loan payments are no more than six months in arrears and sub-standard mortgages are those mortgages over six months in arrears. Individually impaired mortgages are mortgages that are not being serviced, legal action is being taken against the mortgages and specific provisions are made for the impaired portion.

			100%			100%

Investment securities and cash and cash equivalents are classified as 'high grade' where the instruments were issued by the Government or government related organizations. Standard grade assets consist of instruments issued by other reputable financial institutions.

Management is confident in its ability to continue to ensure minimal exposure of credit risk to the Group resulting from its mortgage loans portfolio and investment securities based on the following:

- At 31 December 2009 mortgage loans which represent the largest portion of the Group's financial assets (83%), are backed by collateral. The comparative figure for 2008 was 89%.
- 2% of the mortgage loans portfolio is impaired (2008: 1%). The fair value of collateral supporting these impaired mortgage loans, exceeds the outstanding balances.

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

28. Risk management (continued)

Credit risk (continued)

Credit quality per class of financial assets (continued)

Mortgage loans

In measuring credit risk of mortgage loans, the Group assesses the probability of default by a counterparty on its contractual obligation and the possibility of recovery on defaulted obligations.

The Group assesses the probability of default of individual counterparties using internal rating tools tailored to the various categories of counterparty. These rating tools combine statistical analysis with credit officer judgment and are validated, where appropriate, by comparison with externally available data.

Fair Value of collateral

Upon initial recognition of mortgage loans and advances, the fair value of collateral is based on external valuations commonly used for residential properties. In subsequent periods, the fair value is up dated periodically to ensure the quality of the portfolio is maintained.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques. TTMF's assets are only valued at the Level 2 category.

Included in the Level 2 category are financial assets and liabilities that are measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions and for which pricing is obtained via pricing services, but where prices have not been determined in an active market. This includes financial assets with fair values based on broker quotes, investments in private equity funds with fair values obtained via fund managers and assets that are valued using the Group's own models whereby the majority of assumptions are market observable.

For the year ended 31 December 2009 there was no transfer of assets among any level.

(Continued)

28. Risk management (continued)

Credit risk (continued)

Credit quality per class of financial assets (continued)

Mortgage loans (continued)

Impairment assessment

The main considerations for the mortgage loans impairment assessment include whether any payments of principal or interest are overdue by more than 180 days or whether there are any known difficulties in the cash flows of mortgagors or infringement of the original term of the contract. The Group addresses impairment assessment in two areas: individually assessed allowances and collectively assessed allowances.

Individually assessed allowances

The Group determines the allowances appropriate for each significant mortgage loan on an individual basis. Items considered when determining allowance amounts include the availability of other financial support and the realizable value of collateral, and the timing of the expected cash flows. The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

- Delinquency in contractual payments of principal or interest;
- Breach of loan covenants or conditions;
- Initiation of bankruptcy proceedings.

The impairment losses are evaluated at each reporting date, unless unforeseen circumstances require more careful attention.

The fair value of individually impaired loans is determined by reference to external valuations. No interest is accrued on individually impaired mortgage loans.

Where it is determined that the realizable value of collateral is insufficient to offset the balance of an impaired loan, the allowance account is offset against the receivable and the remaining balance is written off.

Legal action may be initiated against the mortgagor for the outstanding sum. If monies are recovered, these are offset against bad debt expense.

The carrying amounts of impaired financial assets are not otherwise directly reduced.

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

28. Risk management (continued)

Credit risk (continued)

Credit quality per class of financial assets (continued)

Mortgage loans (continued)

Mortgage loans - Individually impaired

The individually impaired loans and advances to customers before taking into consideration the cash flows from collateral held is \$52,917 (2008: \$20,316). The breakdown of the gross amount of individually impaired loans and advances, along with the fair value of the related collateral held by the Group as security, are as follows:

	2009	2008
Mortgage loans – Individually impaired		
Total	<u>52,917</u>	<u>20,316</u>
Fair value of collateral (before factoring in time to sell)	<u>57,005</u>	<u>51,515</u>

Collectively assessed allowances

Allowances are assessed collectively for losses on mortgage loans that are not individually significant and for individually significant loans where there is not yet objective evidence of individual impairment.

The collective assessment takes account of impairment that is likely to be present in the portfolio even though there is not yet objective evidence of the impairment in an individual assessment. Impairment assessment are estimated by taking into consideration the following information: current economic conditions, the approximate delay between the time a loss is likely to have been incurred and the time it will be identified as requiring an individually assessed impairment allowance, and expected receipts and recoveries once impaired.

28. Risk management (continued)

Credit risk (continued)

Credit quality per class of financial assets (continued)

Mortgage loans (continued)

Collectively assessed allowances (continued)

Following is a reconciliation of the movement in the impairment provision:

Impairment provision Details	2009			2008		
	Individual	Collective	Total	Individual	Collective	Total
Beginning balance	4,776	3,653	8,429	980	4,051	5,031
Recoveries/write-backs	-	(20)	(20)	-	-	-
Provision for the year	<u>(1,430)</u>	<u>(1,569)</u>	<u>(2,999)</u>	<u>3,796</u>	<u>(398)</u>	<u>3,398</u>
Balance at year end	<u><u>3,346</u></u>	<u><u>2,064</u></u>	<u><u>5,410</u></u>	<u><u>4,776</u></u>	<u><u>3,653</u></u>	<u><u>8,429</u></u>

Reposessed collateral

Reposessed properties are sold as soon as practicable, with the proceeds used to reduce the outstanding indebtedness. The fair value (after factoring in time to sell) of reposessed properties at 31 December 2009 is \$73,792 (2008: \$74,444).

Renegotiated mortgage loans

When the terms of mortgage loans which are impaired have been renegotiated, interest income is once more recognized on such loans on an accrual basis, rather than as paid.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

28. Risk management (continued)

Credit risk (continued)

Credit quality per class of financial assets (continued)

Mortgage loans (continued)

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market prices. Market risk comprises of interest rate risk, currency risk and other price risk. The Group has no significant concentration of currency risk and other price risk.

Interest rate risk

The Group is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates. This exposure is concentrated in the Group's financial liabilities, because the majority of the Group's financial assets carry fixed interest rates where movements in market rates will not affect the consolidated statement of income.

i. Financial assets

a) Mortgage loans

Mortgage loans account for 79% (2008: 84%) of the Group's total assets. A Ministerial decree is required by the Group for any changes in mortgage interest rates. These interest rates have not been changed within recent times.

b) Investment securities

Investments securities account for 8% (2008: 9%) of the Group's total assets. These are held-to-maturity financial assets comprising of a fixed rate bond and a sinking fund with a fixed maturity value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)

(Continued)

28. Risk management (continued)

Interest rate risk (continued)

ii. Financial liabilities

Long-term and short-term debt accounts for 89% (2008: 84%) of the Group's financial liabilities. This is made up of fixed and floating bonds and debentures as follows:

	2009	%	2008	%
Short-term debt				
Fixed	<u>883,763</u>	<u>100</u>	<u>732,167</u>	<u>100</u>
Long-term debt				
Fixed	1,334,830	88	845,783	81
Floating	<u>186,940</u>	<u>12</u>	<u>196,940</u>	<u>19</u>
	<u>1,521,770</u>	<u>100</u>	<u>1,042,723</u>	<u>100</u>
Total debt	<u>2,405,533</u>		<u>1,774,890</u>	

Long-term and short-term debt is mainly fixed. However, we have assessed the impact of a 100 basis points change in interest rates on the long-term floating debt. Such movement is believed by management to represent those variable changes which are reasonably possible as at the balance sheet date.

The following table demonstrates the sensitivity to a reasonable possible change in interest rates, with all other variables held constant, on the Group's income. This change in interest rates does not give rise to changes in equity.

Effect on profit after tax of a 100 basis points change in interest rates

	100 Basis Points	
	Increase	Decrease
31 December 2009		
Profit before tax	(1,869)	1,869
Tax impact 25%	<u>467</u>	<u>(467)</u>
Profit after tax	<u>(1,402)</u>	<u>1,402</u>
31 December 2008		
Profit before tax	(1,969)	1,969
Tax impact 25%	<u>492</u>	<u>(492)</u>
Profit after tax	<u>(1,477)</u>	<u>1,409</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

(Expressed in Thousands of Trinidad and Tobago dollars)
(Continued)

28. Risk management (continued)

Interest rate risk (continued)

Interest rate risk is further mitigated by the subsidies received from the Government in support of granting subsidized mortgages. These subsidies serve to reduce borrowing cost.

Liquidity risk

Liquidity risk is financial risk due to uncertain liquidity. It is the risk that the Group is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The Group might lose liquidity if it experiences sudden unexpected cash outflows, or some other event causes counterparties to avoid trading with the Group. The consequence may be the failure to meet obligations to repay debts and fulfill commitments to lend.

Liquidity risk management process

The Group's liquidity management process includes:

- Day-to-day funding, managed by monitoring future cash flows to ensure that requirements can be met. These include replenishment of funds as they mature or are borrowed by customers.
- Maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- Diversification of its funding base through access to an expanded range in terms of the number of financial institutions and longer term financing tenure;
- Monitoring balance sheet liquidity ratios against internal requirements; and managing the concentration and profile of debt maturities.

The Group also monitors unmatched medium-term assets, the level and type of undrawn lending commitments and the usage of overdraft facilities.

The table below summarises the maturity profile of the Group's financial liabilities at 31 December based on contractual undiscounted repayment obligations.

Liquidity risk (continued)

Funding approach

Sources of liquidity are regularly reviewed to maintain a wide diversification by provider and term.

Fair value of financial assets and liabilities

The Group computes the estimated fair value of all financial instruments held at the balance sheet date and separately discloses information where the fair values are different from the carrying values. At 31 December, carrying values approximated their fair values for all classes of financial instruments as follows:

Financial instruments where the carrying values are assumed to approximate to their fair values, due to their short-term to maturity include: Cash and cash equivalents, debtors and prepayments, short-term debt and sundry creditors and accruals.

The fair value of fixed rate financial assets and liabilities carried at amortized cost are estimated by comparing market interest rates when they were first recognized with current market rates offered for similar financial instruments. The carrying value of Investment securities and floating long term debt is assumed to approximate their fair values as market rates are comparable with the instruments' actual interest rates.

The Group's loan portfolio is net of specific provisions for impairment and a general provision. The fair value of performing mortgages is assumed to be equal to the present value of the estimated future cash flows discounted at the current market rate of return having factored in the subsidies received from the Government.

Operational risk

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but through a controlled framework and by monitoring and responding to potential risks, the Group is able to manage the risks. Controls include a periodically reviewed disaster recovery plan and business continuity plan, effective segregation of duties, access, authorization and reconciliation procedures, staff training and development and assessment processes.
